Dear Colleagues,

Efforts to strengthen economic ties between Turkey and the United States are gaining momentum. The increasing significance and strong potential of the US-Turkey bilateral trade and investment relations are also demonstrated by the statistics. Accordingly, our trade volume has increased by two folds and reached 20.6 billion dollar over the last decade.

Established in 2004 as an affiliate of the U.S. Chamber of Commerce, the American Business Forum in Turkey (AmCham Turkey/ABFT) is helping to drive this trend by facilitating cooperation between public and private sector leaders from both countries and by advocating for open markets.

Moreover, AmCham Turkey/ABFT has given its U.S. member companies a platform to engage with policy makers and seize commercial opportunities. Given Turkey's large economy, as well as its strategic location and young population, these opportunities are expected to increase in the future.

We are pleased to note that AmCham Turkey/ABFT continues to grow in size and strength. Our membership base has reached 125+ U.S. companies, which have over 54 billion dollars of investment in Turkey and create employment for 90,000 people. It is a pleasure to serve this prestigious membership that includes leading firms across every industry, from banking to legal services, consumer products to information technologies, healthcare to aerospace and defense, and delivery to strategic consultancy.

With the leadership and guidance of AmCham Board of Directors, consisting of the CEOs of Citibank, Procter & Gamble, General Electric, The Dow Chemical Company, PwC, IBM, PepsiCo, Baker & McKenzie, HP, Boeing, Honeywell, 3M, Mondelez International, Nike, Heidrick & Struggles, AmCham has defined its priorities based on further increasing bilateral trade and investment between Turkey and the U.S; and supporting Turkey's economic development by strengthening the business environment and stimulating foreign direct investments.

Over the next years and beyond, the ABFT leadership team will continue to cultivate a liberal and equitable business environment in Turkey. In doing so, we not only aim to support our members achieve their business results, but also support the Turkish economy by encouraging foreign direct investment to achieve sustainable growth.

Sincerely,

AmCham Turkey/ABFT
